**TIMBER WOLF
GRAPPLE BUCKET**

**GB-42 FOR ALL MINI
SKIDSTEERS**

When it comes to mini series grapple buckets, the new Timber Wolf GB-42 stands alone. Its light weight makes it easy to transport to your construction or demolition site, and its heavy duty performance can tackle any job your mini skid steer can handle. Rocks, stumps, logs, timbers and concrete - virtually anything the Timber Wolf can get its jaws around, you can move safely and efficiently.

Timber Wolf's heavy duty teeth lock on to and lift stumps, brush, concrete, and asphalt, and hold it securely in place for transport to the dump site. From clearing the site to final landscaping, the Timber Wolf is a rugged, versatile, invaluable addition to your equipment line. Contact your dealer and find out how the Timber Wolf GB-42 can help you to take a bigger, more profitable bite out of your next project.
